

Cloud Connect and Metro-to-Metro Connect

Accelerate your business with diverse connections to major cloud on-ramps and between Csquare data centers.

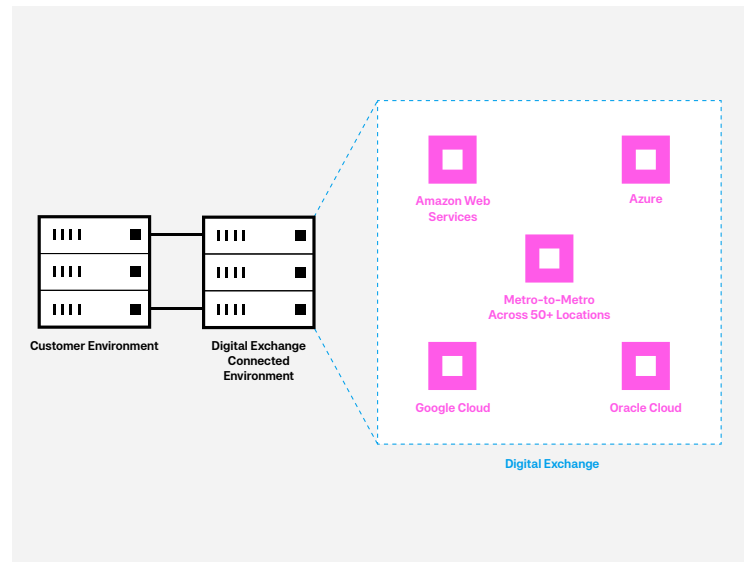

Instantly provision connectivity to leading cloud providers such as Amazon Web Services, Azure, Oracle Cloud, and Google Cloud, and seamlessly connect your Csquare colocation deployments housed in different locations.

How It Works

Powered by the Csquare Digital Exchange™, Cloud Connect and Metro-to-Metro Connect allow customers to immediately provision fault-tolerant cloud and point-to-point connections on-demand as needed via the Csquare Portal.

Easy Installation Steps

1. Connect your colocation environment to the Csquare Digital Exchange via the Exchange Port service. The Exchange Port provides two single-mode fiber cross connects to diverse Csquare Digital Exchange hardware for full redundancy.
2. To order Cloud Connect or Metro-to-Metro Connect via the Csquare Portal: Select the applicable bandwidth speed and data center location or cloud provider you wish to connect to. (You may need to input your access key information depending on the cloud provider chosen.)
3. Once you submit the order(s), the service is provisioned instantly! You can manage your service(s) at any time within the Csquare Portal.

Cloud Connect Benefits

- High-speed connectivity up to 10Gbps
- Path diversity enabling high availability
- Access to major cloud on-ramps

Metro-to-Metro Connect Benefits

- High-speed connectivity up to 10Gbps
- Connect disaster recovery and edge environments in different Csquare-served metro regions with fully diverse routes

The Csquare Advantage
