

Secure Cabinet Now

Accelerate speed to market with integrated colocation services designed for rapid deployment.

Secure Cabinet Now is a fast, cost-effective, enterprise-grade colocation bundle for customers with modest space and power requirements. Optimal for those needing one to four cabinets with power requirements from 2kW - 17kW, Secure Cabinet Now combines space, power, security, and connectivity into one service that can be up-and-running on an accelerated timeline.

WHAT'S INCLUDED

 Secure cabinet and allocated floor space	 Redundant power circuits with associated power allocation
 Access to Csquare's vast ecosystem of carriers and service providers	 Digital Exchange services including IP Connect and Cloud Connect*
 Managed environmental controls for temperature and humidity	 Multi-layer physical security and CCTV monitoring
 Remote Hands services	 100% uptime SLA

* Where available

KEY BENEFITS

Deploy faster

Move into a pre-configured cabinet with power, security, and connectivity for quick installation in an advanced data center.

Get enterprise-grade security

Protect critical infrastructure with multiple layers of physical security, including facility access controls, data hall security, cabinet security, and continuous monitoring.

Connectivity ready

Accelerate access to networks, cloud providers, partners, and customers through our robust lineup of interconnection services.

Reduce complexity

Eliminate need to source and coordinate multiple services with an integrated solution ready for common infrastructure requirements.

Built for growth

Start with a single cabinet and expand as your business needs evolve, with options to add additional power capacity and interconnection services.

IDEAL FOR

- Customers seeking a move-in ready solution with predictable costs
- New colocation deployments
- Small-scale colocation deployments
- Branch and edge infrastructure
- Disaster recovery environments
- Hybrid IT deployments
